Ductile Iron Cover & Frame: 450mm dia.; B125  
Circular

**Code**

KD31

**External Dimensions**

550mm Dia

**Clear Opening**

450mm

**Description**

450mm suitable for medium duty domestic applications in gardens, paths and driveways. Manufactured from strong and highly durable ductile iron.

A patented safety keyway prevents accidental disengagement during the lifting operation. Also compatible with standard D400 lifting keys. Incorporates a single seal labyrinth arrangement to help prevent odour escapes and water ingress. Complies fully with BS EN 124:2015 and includes the BSI Kitemark.
