

**Name**

Frost Cold Roof drain assembly - fixed dome 220mm circular, medium sump body with clamp, horizontal threaded outlet 4" BSP

**Code**

33.0044

**Description**

Frost Cold Roof drain assembly - fixed dome 220mm circular, medium sump body with clamp, horizontal threaded outlet 4" BSP.

Domed rainwater outlets are suited to cold roof construction where the waterproof membrane is located on top of the roof deck.

Cast Iron Grade EN-GJL-150 to BS EN 1561:1997  
80%-97% recycled materials  
100% recyclable

Polycarbonate dome

**Body Material**

CAST IRON

**Body Type**

N/A

**Grating Material**

POLYCARBONATE

**Flow Rate**

7.88 l/s

**Outlet Type**

THREADED

**Grating Type**

DOMED

**Load Rating**

N/A

**Threaded Joint Instructions**

Apply Low Modulus Silicone to the thread of the pipe spigot & female thread within the roof outlet body. Using a flat spreading utensil, evenly spread the silicone into the threaded grooves. Insert the male into the female thread of the roof outlet body then carefully turn clockwise ensuring the thread is not "cross threading". Once fully tightened clean off excess silicone to both ends of the threaded connection.
