## **Body Material**

**CAST IRON** 

## **Grating Material**

NICKEL BRONZE

## **Outlet Type**

THREADED

## **Load Rating**

L15 To BS EN 1253

### **Threaded Joint Instructions**

Apply Low Modulus Silicone to the thread of the pipe spigot & female thread within the roof outlet body. Using a flat spreading utensil, evenly spread the silicone into the threaded grooves. Insert the male into the female thread of the roof outlet body then carefully turn clockwise ensuring the thread is not "cross threading". Once fully tightened clean off excess silicone to both ends of the threaded connection.
