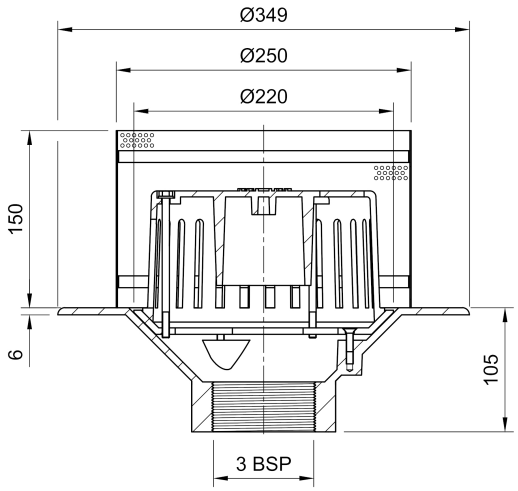
Product Specification



Name
Frost Aluminium Inverted Roof drain assembly - fixed anti-vortex dome 220mm, medium sump body with clamp, vertical threaded outlet 3" BSP

Code
34.0303

Description
Frost Inverted Roof drain assembly, fixed anti-vortex dome 220mm circular, medium sump body with clamp, vertical threaded outlet 3" BSP.
Supplied with grating and clamp.
Rainwater outlets with domed gratings are suited to inverted roof construction where the waterproof membrane is located above the roof deck but below the insulation layer.

Aluminium LM 6 to BS EN 1599-4:1999

Threaded reducers to 2" available

Body Material
ALUMINIUM

Body Type
N/A

Grating Material
ALUMINIUM

Flow Rate
5 l/s

Outlet Type
THREADED

Grating Type
ANTI-VORTEX DOME

Load Rating
N/A

Threaded Joint Instructions

Apply Low Modulus Silicone to the thread of the pipe spigot & female thread within the roof outlet body. Using a flat spreading utensil, evenly spread the silicone into the threaded grooves. Insert the male into the female thread of the roof outlet body then carefully turn clockwise ensuring the thread is not "cross threading". Once fully tightened clean off excess silicone to both ends of the threaded connection.
