

### Name

MuckStopper Red 450mm Foul Water Inspection Chamber Cover

### Code

MS-IC-TC-450-R

### Description

A reusable, high-visibility temporary protection unit designed for use with 450mm inspection chambers for foul drainage systems. Supplied with a durable red cover and integrated frame, featuring a checklist sticker to support site inspections and system identification. Red colour clearly identifies drainage type and keeps 450mm chambers protected from silt and debris.

Suitable for use with 450mm inspection chambers from all major drainage brands.
